Team Honda's Ricky Graham and Bubba Shobert finish 1-2 in 1984 Grand National Championship.

ALL YEAR, THE ONLY THING THAT FINISHED CLOSE TO A HONDA V-TWIN, WAS ITS TWIN.

There was a lot of competition in the Grand National Championship Series. For third place.

Because Honda's Ricky Graham and Bubba Shobert ran away with first and second places. As a matter of fact, they finished a whopping 60 and 59 points ahead of their nearest competitor.

Which is a pretty good example of Honda's lead in V-twin technology. Technology that includes advanced cylinder head designs. And unique, offset dual-pin crankshafts for smooth-running perfect primary balance.

It's the same technology you'll find in Honda's V-twin production bikes, such as the powerful Shadows.™

Stop by your Honda dealer and see the beautiful new V-twins. They're bred from champions.

Olds Cruisers.
They handle cargo like a wagon. And people like an Oldsmobile.

When it comes to muscling cargo, the Olds Cruisers can handle the job with the best of them. But what makes these wagons so special is the way they handle people.

Take the Cutlass Cruiser—this year offering an available 3.8L multiport fuel injected V6. With over 74 cubic feet of cargo space with the second seat down, it offers the kind of room you expect from a wagon.

But even better, it offers the special kind of luxury you expect from an Oldsmobile. Handsome interior appointments. Available seating for *eight*. And thoughtful conveniences, like the hinged rear window that flips open for easy access to the cargo bay.

Olds Cruisers come in three sizes to fit any size family. With a wide choice of available power trains—4, 6, and 8 cylinder engines—to answer any demand.

So when you have a load to move, move it in a wagon that won't treat you like cargo.
